

## **ECO WARRIORS OF JMV VOW TO LEAD ENVIRONMENT CONSCIOUSNESS**

Climate is not changing it has changed and the world is running out of time to take corrective measures. To bring awareness about the climate change among masses and bring the sense of urgency to take action, the Energy Swaraj Foundation (ESF) jointly with Atal Innovation Mission (NITI Aayog) and AICTE organised a mega event on Energy Literacy Training and World's largest Global Climate Clock Assembly and Display event at Indira Gandhi Indoor Stadium, New Delhi on 22 April 2023. As working together is the key to climate corrective actions, 20 students from our Vidyalaya along with Ms. Manisha Kumar and Mr. Janmejy joined hands to learn assembling the climate clock, promote a mass movement to address climate change and show how fast we are running out of time. The eco warriors from our Vidyalaya assembled and received 2 Climate Clocks while other schools received one. Over 5000 people cutting across various sectors like academia, corporates, government, media and social organisations participated in the Mega Event, created a WORLD RECORD and shared their commitment to heal our 'one Earth' bring peace to our 'one family' and inspire sustainability for our 'one future'.
